ARTWORK + LOGOS

- Artwork placement is an approximation in positioning and scale, specific dimensions and placements cannot be guaranteed.
- NØPINZ can not guarantee artwork will match exactly across seams or zips. Our design team will advise on the best logo/pattern placement to avoid potential problem areas. The customer confirms they have permission/copyright to use all the files contained within the finalized design.
- Additional charges may apply if the artwork is not provided in a vector format. In this case, our design team will provide you with an estimate.
- Our brand guidelines strictly define where and how our logo may be used. Logos are permitted only in approved placements, colour and sizes. These specifications are non-negotiable and must be followed to maintain brand consistency and integrity.

COLOURS

- Screen colours do not represent print colours accurately.
- If colour references are not provided, NØPINZ can not guarantee a colour match.
- Colour swatches and colour matches are available on request. (We strongly recommend this service if you have existing kit and wish to match the colours).
- Colours may vary shades when printed on different materials, especially windstopper fabrics. This is due to different densities and material composition and isn't considered a fault.
- Colours will become lighter when garments are stretched due to the process of manufacturing, this isn't considered a fault.
- Some fabrics are textured which may change the appearance of colour from pre-dyed fabrics.
- Some items have specific sections that are made from pre-dyed material which is only available in set colours. Full custom printing is not available in those areas. Our best effort will be made to match the design to the pre-dyed fabrics.
